Adjustment for this patent. Applicant respectfully requests that the USPTO review this determination for accuracy.

This request is being submitted within 2 months of the issue date of this patent.

In accordance with §1.705(d), applicant submits the following in connection with its request for reconsideration/reinstatement of Patent Term Adjustment.

Payment of the \$200.00 fee for filing an application for patent term adjustment under §1.705, pursuant to § 1.18(e), is enclosed.

A statement of the facts involving this request is provided as follows:

In its Determination of Patent Term Adjustment mailed September 12, 2005, the USPTO set the patent term adjustment for this patent at 1,028 days. In the Issue Notification mailed February 22, 2006 and in the Patent granted on March 14, 2006, the USPTO reset the patent term adjustment for this patent at 928 days. Applicant believes that the correct patent term adjustment for this patent is **997** days.

The basis for the adjustment is 37 C.F.R. § 1.704(c)(10), specifically, a delay on the part of the applicant for submitting an amendment under § 1.312 or other paper after the notice of allowance was mailed, which resulted in a 31 day applicant delay.

The relevant dates for which an adjustment is sought and to which the patent is entitled are as follows:

Applicant delay: A Notice of Allowance was mailed by the USPTO on September 12, 2005. In reply to the Notice of Allowance, Applicant submitted the issue fee payment, replacement drawings and an amendment under rule 1.312 which were received by the USPTO/OIPE on December 5, 2005. With regard to the replacement drawings, a review of the PTA details for this patent available via the USPTO's Patent Application Information Retrieval (PAIR) system contains an entry dated December 5, 2005 which indicates "Workflow-Drawings Finished", which suggests to applicant that the USPTO assessed no delay on the part of applicant for submitting replacement drawings after the mailing date of the Notice of Allowance. With regard to the 1.312 amendment, the USPTO responded to applicant's amendment under § 1.312 in a communication mailed

January 4, 2006 (see copy attached), 31 days after the receipt date. A review of the PTA details for this patent available via the PAIR system indicates that following the USPTO's January 4, 2006 response, the USPTO improperly assessed 100 days of delay on the part of the applicant, rather than 31 days of delay.

Based on the above, applicant respectfully submits that following the USPTO's January 4, 2006 response to applicant's amendment under § 1.312, the 100 day delay attributed to the applicant is improper and should be adjusted to 31, and that the correct patent term adjustment for this patent is 1,028 days minus 31 days, i.e. **997** days.

The above-referenced application/patent is not subject to a terminal disclaimer.

Based on the foregoing, Applicant respectfully requests that the USPTO reconsider its Determination.

The Commissioner is hereby authorized to charge any deficiencies or credit any overpayment associated with this communication to Deposit Account No. 06-1325.

Respectfully submitted,

Date: May 15, 2006
